

Reliv Defense

Purpose: Immune Support

Servings: 30 (2 capsules per serving)

Directions: Take 2 capsules Daily

IT HAS... (FEATURES)	WHICH MEANS... (BENEFITS)
Baker's yeast beta glucan (Wellmune®)...	... it functions as an immunomodulator to make your immune system as efficient as possible so it can quickly identify and confront threats.
Beta glucan extract, an algae source...	... it primes key immune cells to strengthen the body's immune defenses through antioxidant support and rapid response to pathogens.
Reishi mushroom extract, an adaptogen known as the king of the mushrooms...	... it combats stress throughout the body and stimulates the immune system through cell regeneration.
Tinofend® extract (tinospora cordifolia), a proprietary natural spectrum of tinospora used for centuries in Ayurvedic medicine...	... it's clinically demonstrated to support immune health associated with histamine effects.
Two unique sources of beta glucan (yeast and algae)...	... it offers comprehensive immune support.
Elderberry Extract it is an excellent source of antioxidants, anthocyanins and polyphenols, capable of scavenging free radicals that threaten the immune system.
Echinacea and Ginseng these botanical remedies have been used for centuries to restore and enhance well-being.
Zinc it is an essential mineral needed by the body to make proteins and DNA. It stimulates immune cell function, hormone production and supports metabolic health.
Selenium it plays a key role in metabolism and is a potent antioxidant.

Vitamin supplements should not replace a balanced diet. This product is not intended to diagnose, treat, cure, or prevent any disease.
